

I am a listener and fan of Air 1 radio station out of California. Air 1 serves my community by providing positive, quality, and uplifting Christian music to all its listeners. Air 1 is supported completely by listeners and serves them above and beyond what is expected. This station has and continues to touch countless lives, showing the love of Christ, which is evidenced by audio testimonials played to us all over the radio. If an LPFM broadcaster with alternate programming forces Air 1 off the air, numerous fans would suffer the Fallout as there are few other stations that provide such a service to the population. The Air 1 radio station is in the public's interest because in this day in age it is hard to find anything uplifting on the radio that serves the listener in the way that Air 1 does. If Air 1 is forced off the air, a hole will be left that will not be able to be filled.
